

REQUEST FOR A SCHOOL PLACE

Submit your request for your preferred preschool class by no later than 3 March!

jarfalla.se/skolval

Do you have a child who is due to begin attending a preschool class (förskoleklass) in autumn 2020?

Apply for a place using our e-service at jarfalla.se/skolval, from 10 February. The final date for applications is 3 March.

What to do

Submit your request using our e-service, which you can access at jarfalla.se/skolval. In order to use this service, you must have a BankID.

If you do not yet have a BankID, you can order one by contacting your bank or by visiting support.bankid.com.

Independent schools

Would you like your child to attend an independent school, or a school located outside our municipality? If so, you must contact this school directly.

If your child is not going to attend one of the municipal schools in Järfälla, you must renounce your right to choose a municipal school so that the place can be given to another child. This can be done using the e-service.

Confirmation of school placement

In March, we will send you a provisional confirmation of your school placement. If you actively submitted a request but did not receive a place at your preferred choice of school, you will automatically be placed in a queue for the higher-ranking schools. After we have issued the provisional confirmations, there will be vacant places at the schools and reserve places will be allocated in accordance with your position in the queue.

In May, we will send you a final confirmation of your school placement. Please note that independent schools may send their confirmations at different times.

How the school places are allocated

As far as is possible, we will try to place your child in accordance with your requests. If your child does not receive a place at your preferred choice of school, the municipality will then try to meet your second choice of school, and so on.

Places are allocated in this order:

Order of admission to preschool classes

1. Children with priority due to the existing attendance of a sibling (registered as living in the municipality)
2. - Children who have requested a place at the school, *and*
- Children who have not requested a place at the school but who are assumed to want to attend the school as it is located close to their home
3. Children from another municipality

If there are not enough places

If the number of applicants for one school exceeds the number of places, we use the principle of relative proximity in order to make a selection. This means that the distance between a child's home

and the preferred school and other schools in the area is compared with the equivalent distances for other children. These distances are calculated using the child's registered address (*folkbokföringsadress*) and the shortest walking distance to the schools.

Our goal is to ensure that no child has an unreasonable distance to travel to their school. You can find out more about the principle of relative proximity at jarfalla.se/skolval.

Place at a leisure-time centre (*fritidshem*)

If your child already attends a preschool or another form of educational care in Järfälla, the transfer from a preschool place to a place at a leisure-time centre will take place automatically.

If your child does not have any need to attend a leisure-time centre, you must inform Järfälla municipality that you wish to cancel this place, which you can do at jarfalla.se.

What happens if you do not submit a request for a school?

We have a responsibility to ensure that all school-age children who are registered as living in our municipality receive a place at school. If you do not submit a request for a school, the school located closest to your home will automatically be registered as your preferred choice, with the next-closest school being your second choice, etc.

Please note that only those children who have submitted requests will be placed in the queue for higher-ranked schools in the event that their preferred choices are not met. In other words, it is important that you make an active choice. This will increase the chances that your child will receive a place at the school you want.

New school in Barkarbystaden

This autumn, it will be possible to request a place at the new Ålstaskolan in Barkarbystaden. The school building is expected to be ready in 2022, but, until then, schooling will take place in the premises of Karlslunds förskola. Additional information about Ålstaskolan will be provided at the information meeting at Herrestaskolan.

Are you moving to Järfälla?

Or have you recently moved here? If so, you will need to create an account using our e-service so that you will be able to submit a school placement request for your child. Please contact our Service Centre, who will be happy to help you.

If you would like your child to attend a leisure-time centre, you must apply for a place, which you can do at jarfalla.se.

Would you like to find out more about our schools?

You are invited to attend our information meetings before applying for a preschool place.
