

REQUESTS REGARDING SCHOOL

Submit requests between 31 January and 14 February 2022 regarding preschool class or grade 7!

jarfalla.se/skolval

It's now time to request a school place for the 2022 autumn term

When you have submitted a request regarding school placement, the municipality will try to meet your wishes as far as possible. Placement takes place based on your wishes and the number of available places at the schools.

This is how to apply

You must submit your request through the online service which you can find on jarfalla.se/skolval.

You must have a bank ID in order to use the online service.

If you do not have a bank ID, you can request one by contacting your bank or on support.bankid.com.

Applications for a place at the after-school centre

If you would like your child to attend an after-school centre, you can apply via the same online service as requests regarding a school place, namely jarfalla.se/skolval. You must apply for a place at an after-school centre even if your child has previously attended preschool.

Applications for a place at Järfälla music classes

You can apply online if your child would like to attend Järfälla music classes. Järfälla music classes cover grades 4-9 and are located at Fjällenskolan as from the 2022 autumn term.

Applications to an independent school?

Would you like your child to attend an independent school or a school outside the municipality? If so, you must contact the school directly .

If you know that your child will not attend a municipal school in Järfälla, you should renounce the choice of a municipal school so that the place can go to another pupil. You do so online.

If your child has a place at an independent school in the municipality and you do not submit a request in the municipal school selection process, your child will not be offered a place at a municipal school.

What happens after the application period?

Notice regarding school placement

In March, you will receive an initial notice from us about school placement. If you have not obtained your first-hand choice and have made an active request to a number of schools, you will be placed automatically in queues for the higher ranking schools. After this notice is received, available places at the schools and reserve places will be allocated based on the queue order.

In April, you will receive final notice from us regarding school placement. Note that independent schools can provide notice regarding school placement at some other time.

This is how school places are allocated

As far as possible, we will try to place your child in accordance with your wishes. If your child does not obtain its first-hand alternative, the municipality will try to place at the second alternative, and so forth.

Acceptance procedure for preschool classes

1. Pupils with protected identity
2. Pupils with sibling priority (applies if a sibling will attend grades 1-3 at a requested school at the start of the autumn term; only siblings registered at the same address provide sibling priority)
3. Pupils who
 - requested placement at the school *and*
 - pupils who have not requested a place at the school but are assumed to wish to attend the school based on the school's proximity to their home
4. Pupils from another municipality

Acceptance procedure for grade 7

1. Pupils with protected identity
2. Pupils who
 - requested placement at the school *and*
 - pupils who have not requested a place at the school but are assumed to wish to attend the school based on the school's proximity to their home
3. Pupils from another municipality

In the event of insufficient places

If there are many applicants to the same school and everyone does not obtain a place, we make a selection based on the relative proximity principle. This means that the distance from the pupil's home to the requested school and other neighbouring schools is compared with corresponding distances for other pupils. We proceed based on the registered address and the shortest route to school.

The aim is that all pupils shall have a reasonable distance to school. You can read more about the relative proximity principle on jarfalla.se/skolval.

If you do not submit a request regarding a school

The municipality is responsible for ensuring that a school place is provided for all children who are obliged to attend school who are registered in the municipality. If you do not submit a request for a school, the closest school will automatically become your first-hand choice, the next nearest your second-hand choice, and so forth.

Note that it is only pupils who have submitted a request who are placed in queues for the schools they have ranked higher, if they do not receive a place at their first-hand choice. In other words, it is important that you make an active choice. This also increases the chances that you will obtain a place at the school you request.

In the process of moving to Järfälla

Have you moved here recently? In that case we will create an account for you in the online service so that you can submit requests regarding a school for your child. Contact the service centre via

kontakt@jarfalla.se or call 08-580 285 00.

Would you like to know more about our schools before applying for a preschool class or grade 7?

You are warmly welcome to attend our information meetings on 17-28 January. See information on jarfalla.se/skolval.

Schools in Järfälla

There are 22 municipal schools in Järfälla municipality. We are constantly working to improve results with a focus on security and peaceful studying in order to create the best conditions for development and learning.

See more about our schools on jarfalla.se/grundskolor
