

REQUEST FOR SCHOOL

Submit your choice for preschool class
or Year 7 between 22 January and 5
February!

jarfalla.se/skolval

Now it's time to apply for a school place for the 26/27 school year.

Once you have submitted your school placement choice, the municipality will try to meet your wishes as far as possible. Placement is based on your wishes and the number of available places at the schools.

This is how you apply

You submit your choice via the e-service, which you can find at jarfalla.se/skolval. To use the e-service, you need a BankID. If you do not have a BankID, you can order one by contacting your bank or by visiting support.bankid.com.

Apply for a place in after-school care

If you would like to apply for a place in after-school care for your child in preschool class, you do this in May/June once you have received the placement decision stating which school your child will attend in autumn 2026. The information will be included in the placement decision.

Applying to an independent school?

Would you like your child to attend an independent school or a school outside the municipality? If so, you must contact the school directly.

If you know that your child will not attend a municipal school in Järfälla, you must withdraw from the municipal school choice so that the place can be offered to another pupil. You do this in the e-service. If your child has a place at an independent school within the municipality or at a school outside the municipality and you do not submit a choice in the municipal school choice, your child will not be offered a place at a municipal school.

What happens after the application period?

Decision on school placement

At the end of March, you will receive the decision on school placement. The placement is direct, which means that you do not need to confirm the place.

Independent schools may issue their decision on school placement at a different time.

If you want to change school

If you are not satisfied with your placement, you can apply to change school.

- The first regular school change period is in May.
- An additional opportunity is available before the autumn term for those starting preschool class or Year 7.

Important to know

- School changes are subject to availability.
- If you do not get the school you want, you keep your current placement.
- Dates for the school change periods can be found at jarfalla.se

How school places are allocated

As far as possible, we try to place your child according to your wishes. If your child does not get their first-choice option, the municipality will try to place them in their second-choice option, and so on.

Admission order for preschool class

1. Pupil with sibling priority (applies if a sibling will attend Years 1–3 at the requested school at the start of the autumn term; only siblings registered at the same address qualify for sibling priority)
2. Pupil who has requested a place at the school, and a pupil who has not submitted a request for a place at the school but is assumed to want to attend the school based on the school's proximity to the home
3. Pupil from another municipality.

Admission order for Year 7

1. Pupil who has requested a place at the school, and a pupil who has not submitted a request for a place at the school but is assumed to want to attend the school based on the school's proximity to the home
2. Pupil from another municipality.

If you do not submit a school choice

The municipality is responsible for ensuring that all children of compulsory school age who are registered in the municipality have a school place. If you do not submit a school choice, the nearest school will automatically become your first-choice option.

If there are not enough places at a school

If many people apply to the same school and there are not enough places for everyone, we use the relative proximity principle to select.

This means that pupils' distance from their home to the requested school and to other nearby schools is compared with other pupils' corresponding distances. We use the registered address and the shortest walking/cycling route to the schools.

The aim is for all pupils to have a reasonable distance to their school. You can read more about the relative proximity principle at jarfalla.se/skolval.

Moving to Järfälla

Have you recently moved to the municipality? Then you apply for a school place via the e-service on the Järfälla municipality website. If you have any questions, please contact the municipality's service centre:

- kontakt@jarfalla.se
- 08-580 285 00
